

The Commerce Tax

Nevadans are being laid off Companies are relocating

In 2014, almost 80% of Nevada voters rejected a
new business income tax on the ballot

Just seven months later Assemblyman
James Oscarson voted for an identical tax, resulting in a
\$1.4 BILLION TAX HIKE!

AX THE TAX!

State law allows Nevada voters to gather signatures
to repeal this outrageous tax that was already once
rejected by the overwhelming majority of voters.

I've joined a group of conservatives and taxpayers
who are gathering enough signatures to put repeal of
the Oscarson Tax on the 2018 ballot.

I hope you'll join me.

Support the repeal effort by signing the petition!
